

STROJEVI ZA TOKARENJE PRIRUBNICA  
SA VANJSKIM STEZANJEM  
TF-500 TF-900 TF-1500

|                               |            | TF -500    | TF -900    | TF 1500        |
|-------------------------------|------------|------------|------------|----------------|
| Pogon -elektro - zračni       |            | N=900 W    | N=1800 W   | N=2800 W       |
| Promjer tokarenja             |            | d1=0"-20"  | d1=0"-36"  | d1=0"-60"      |
| Dužina planske glave          |            | d=260mm    | d=360      | d=550mm        |
| Hod klizača na planskoj glavi |            | h= 90mm    | h=180      | h= 250mm       |
| Aksijalni hod -ručno          |            | h1=30mm    | h1= 30mm   | poseban supotr |
| Kvaliteta obrade              |            | N=8        | N=8        | N=8            |
| Posmak                        | ler        | s=0.0 mm/o | s=0.0 mm/o | s=0.0 mm/o     |
|                               | automatski | s=1 mm/o   | s=1 mm/o   | s=1 mm/o       |
|                               | ručni      | s=0.1 mm/o | s=0.1mm/o  | s=0.1mm/o      |
| Visina stroja                 |            | B= 360     | B= 400     | B= 440         |
| Raspon nogu                   |            | A= 700     | A= 1150    | A= 1800        |
